

Active Transportation Plan

Community Open House

Mark your calendars

You are invited to participate in the Active Transportation Plan Community Open House workshop on **Thursday April 12th from 5 p.m. to 7 p.m.** at the Civic Centre main hall located at 16 Civic Centre, Petawawa ON.

Petawawa is preparing an Active Transportation Plan (ATP) to develop a realistic, feasible and implementable blueprint for the planning, design and implementation of non-motorized routes, infrastructure and promotion over the short, medium and long-term. The ATP will guide decision-making, coordination and collaboration between Council, local municipal staff, community partners and residents. Objectives for the ATP include:

- 1 Creating a connected network of active transportation routes throughout the Town to connect major destinations, points of interest, natural areas, etc.
- 2 Make non-motorized travel more safe, convenient and enjoyable for people of all ages and abilities.
- 3 Position Petawawa as cycle friendly while also helping to create a more healthy and sustainable community.

Creating solutions that are specific to Petawawa which complement ongoing initiatives will be a focus when developing the Plan!
